

SUTIME: A Library for Recognizing and Normalizing Time Expressions

Angel X. Chang, Christopher D. Manning

Computer Science Department, Stanford University, Stanford, CA, 94305
{angelx,manning}@cs.stanford.edu

Abstract

We describe SUTIME, a temporal tagger for recognizing and normalizing temporal expressions in English text. SUTIME is available as part of the Stanford CoreNLP pipeline and can be used to annotate documents with temporal information. It is a deterministic rule-based system designed for extensibility. Testing on the TempEval-2 evaluation corpus shows that this system outperforms state-of-the-art techniques.

Keywords: temporal tagger, time normalization, pattern matching

1. Introduction

The importance of modeling temporal information is increasingly apparent in natural language applications, such as information extraction and question answering. For instance, in relation extraction, it is not sufficient to just extract simple relations like *President(U.S.A. George Walker Bush)*. Rather, one would also need to extract fluents that capture the temporal range over which such relations hold. Given the sentence

George Walker Bush (born July 6, 1946) is an American politician who served as the 43rd President of the United States from 2001 to 2009.

we can extract the following temporal information about when George Bush was born and when he was president:

	<i>Expression</i>	<i>Type</i>	<i>Normalized</i>
Birth	July 6, 1946	DATE	1946-07-06
Pres.	from 2001 to 2009	RANGE	2001/2009

Extracting such temporal information requires the ability to recognize temporal expressions, and to convert them from text to a normalized form that is easy to process. Systems that extract temporal expressions are known as *temporal taggers*. In this paper, we present SUTIME, a system for extracting and normalizing temporal expressions.

2. System Description

SUTIME is a rule-based temporal tagger built on regular expression patterns. Temporal expressions are bounded in their complexity, so many of them can be captured using finite automata. As shown by systems such as FASTUS (Hobbs et al., 1997), a cascade of finite automata can be very effective at extracting information from text. With SUTIME, we follow a similar staged strategy of (i) building up patterns over individual words to find numerical expressions; then (ii) using patterns over words and numerical expressions to find simple temporal expressions; and finally (iii) forming composite patterns over the discovered temporal expressions.

In NLP applications, text is usually first tokenized and annotated, making it convenient to specify regular expressions over the tokens. The resulting regular expressions

can be more concise and easier to understand, manipulate and modify than traditional regular expressions over strings. Regular expressions over tokens facilitate access to additional features, such as parts-of-speech and named entity tags. With this approach, adding new rules to SUTIME is simple, by design.

We provide SUTIME as a Java library, implemented as an annotator in the Stanford CoreNLP pipeline;¹ its main features are described below:

Extraction of temporal expressions from text: Given tokenized English text, SUTIME finds temporal expressions and outputs annotations for further manipulation and interpretation. Its output includes annotations in the form of TIMEX3 tags. TIMEX3 is part of the TimeML annotation language (Pustejovsky et al., 2003) for markup of events, times and their temporal relations in documents. To better capture temporal information found in natural language, the value attribute of TIMEX3 tags extends the ISO 8601² standard. For temporal expressions not covered by this specification, we introduce additional attributes.

Representation of temporal objects as Java classes: Natural language uses many kinds of temporal expressions. SUTIME provides tools to map them to logical representations and data structures that are easier to handle programmatically. For interoperability, our representations are convertible to Joda-Time³ classes.

Resolution of temporal expressions with respect to a reference date: When processing natural language text, one often has to work with expressions that refer to a relative time (e.g., *last Friday*). Determining the actual date to which such expressions refer requires a reference date, on which the statement was made. SUTIME uses document dates as references. For example, for a document from **2011-09-19**, SUTIME would resolve the date referred to by *last Friday* as **2011-09-16**. But there could be confusion about the time point to which expressions refer: e.g., from a date like

¹nlp.stanford.edu/software/corenlp.shtml

²www.iso.org/iso/date_and_time_format

³Joda-Time — joda-time.sourceforge.net — is a comprehensive Java API for working with dates and times.

Innovations in Bio-Inspired Computing and Applications Ajith Abraham, Niketa Gandhi, Millie Pant, 2019-05-21 This book highlights recent research on bio inspired computing and its various innovative applications in Information and Communication Technologies It presents 50 high quality papers from the 9th International Conference on Innovations in Bio Inspired Computing and Applications IBICA 2018 and 7th World Congress on Information and Communication Technologies WICT 2018 which was held at Toc H Institute of Science and Technology TIST on December 17 19 2018 IBICA WICT 2018 was a premier conference and brought together researchers engineers and practitioners whose work involved bio inspired computing computational intelligence and their applications in information security real world contexts etc Including contributions by authors from 22 countries the book offers a valuable reference

guide for all researchers students and practitioners in the fields of Computer Science and Engineering *Distributed Computing and Artificial Intelligence, Volume 2: Special Sessions 18th International Conference* Sara Rodríguez González, José Manuel Machado, Alfonso González-Briones, Jaroslaw Wikarek, Roussanka Loukanova, George Katranas, Roberto Casado-Vara, 2021-09-09 This book highlights the latest research on distributed computing and artificial intelligence DCAI 2021 is a forum to present applications of innovative techniques for studying and solving complex problems in artificial intelligence and computing areas The present edition brings together past experience current work and promising future trends associated with distributed computing artificial intelligence and their application in order to provide efficient solutions to real problems This year s technical program will present both high quality and diversity with contributions in well established and evolving areas of research Specifically 55 papers were submitted to main track and special sessions by authors from 24 different countries representing a truly wide area network of research activity Moreover DCAI 2021 Special Sessions have been a very useful tool in order to complement the regular program with new or emerging topics of particular interest to the participating community The technical program of the Special Sessions of DCAI 2021 has selected 23 papers We would like to thank all the contributing authors the members of the Program Committees the sponsors IBM Armundia Group EurAI AEPIA APPIA CINI OIT UGR HU SCU USAL AIR Institute and UNIVAQ and the Organizing Committee of the University of Salamanca for their hard and highly valuable work

Natural Language Processing for the Semantic Web Diana Maynard, Kalina Bontcheva, Isabelle Augenstein, 2022-05-31 This book introduces core natural language processing NLP technologies to non experts in an easily accessible way as a series of building blocks that lead the user to understand key technologies why they are required and how to integrate them into Semantic Web applications Natural language processing and Semantic Web technologies have different but complementary roles in data management Combining these two technologies enables structured and unstructured data to merge seamlessly Semantic Web technologies aim to convert unstructured data to meaningful representations which benefit enormously from the use of NLP technologies thereby enabling applications such as connecting text to Linked Open Data connecting texts to each other semantic searching information visualization and modeling of user behavior in online networks The first half of this book describes the basic NLP processing tools tokenization part of speech tagging and morphological analysis in addition to the main tools required for an information extraction system named entity recognition and relation extraction which build on these components The second half of the book explains how Semantic Web and NLP technologies can enhance each other for example via semantic annotation ontology linking and population These chapters also discuss sentiment analysis a key component in making sense of textual data and the difficulties of performing NLP on social media as well as some proposed solutions The book finishes by investigating some applications of these tools focusing on semantic search and visualization modeling user behavior and an outlook on the future

Logics in Artificial Intelligence Giovanni Casini, Besik Dundua, Temur Kutsia, 2025-10-03 This two

volume set LNAI 16093 16094 constitutes the proceedings of the 19th European Conference on Logics in Artificial Intelligence JELIA 2025 held in Kutaisi Georgia during September 1 4 2025 The 39 full papers and 5 short papers included in this volume were carefully reviewed and selected from 108 submissions They were organized in the following topics Part I Special Track Logics for Explainable and Trustworthy AI Argumentation Constraint Satisfaction and Optimization Deontic Reasoning Description Logics and Ontological Reasoning Higher order and Non classical Logics Logic Programming and Answer Set Programming Part II Non monotonic Reasoning and Belief Change Propositional Reasoning QBF and Satisfiability Problems Temporal Reasoning Theorem Proving

Domain-Sensitive Temporal Tagging Jannik Strötgen, Michael Gertz, 2016-07-28 This book covers the topic of temporal tagging the detection of temporal expressions and the normalization of their semantics to some standard format It places a special focus on the challenges and opportunities of domain sensitive temporal tagging After providing background knowledge on the concept of time the book continues with a comprehensive survey of current research on temporal tagging The authors provide an overview of existing techniques and tools and highlight key issues that need to be addressed This book is a valuable resource for researchers and application developers who need to become familiar with the topic and want to know the recent trends current tools and techniques as well as different application domains in which temporal information is of utmost importance Due to the prevalence of temporal expressions in diverse types of documents and the importance of temporal information in any information space temporal tagging is an important task in natural language processing NLP and applications of several domains can benefit from the output of temporal taggers to provide more meaningful and useful results In recent years temporal tagging has been an active field in NLP and computational linguistics Several approaches to temporal tagging have been proposed annotation standards have been developed gold standard data sets have been created and research competitions have been organized Furthermore some temporal taggers have also been made publicly available so that temporal tagging output is not just exploited in research but is finding its way into real world applications In addition this book particularly focuses on domain specific temporal tagging of documents This is a crucial aspect as different types of documents e g news articles narratives and colloquial texts result in diverse challenges for temporal taggers and should be processed in a domain sensitive manner

Delve into the emotional tapestry woven by Emotional Journey with in **Sutime A Library For Recognizing And Normalizing Time** . This ebook, available for download in a PDF format (Download in PDF: *), is more than just words on a page; it is a journey of connection and profound emotion. Immerse yourself in narratives that tug at your heartstrings. Download now to experience the pulse of each page and let your emotions run wild.

Sutime A Library For Recognizing And Normalizing Time Introduction

In the digital age, access to information has become easier than ever before. The ability to download Sutime A Library For Recognizing And Normalizing Time has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Sutime A Library For Recognizing And Normalizing Time has opened up a world of possibilities. Downloading Sutime A Library For Recognizing And Normalizing Time provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Sutime A Library For Recognizing And Normalizing Time has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Sutime A Library For Recognizing And Normalizing Time. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Sutime A Library For Recognizing And Normalizing Time. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Sutime A Library For Recognizing And Normalizing Time, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Sutime A Library For Recognizing And Normalizing Time has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF

downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Sutime A Library For Recognizing And Normalizing Time Books

1. Where can I buy Sutime A Library For Recognizing And Normalizing Time books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Sutime A Library For Recognizing And Normalizing Time book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Sutime A Library For Recognizing And Normalizing Time books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Sutime A Library For Recognizing And Normalizing Time audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media

or recommend them to friends.

9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Sutime A Library For Recognizing And Normalizing Time books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
