Byzantine Chant Christian Troelsgård, 1997 The contributors to this volume about Byzantine chant use different approaches to uncover the early development and transmission of the tradition its constancy and permutations Considerations include a recent attempt to establish a new date for the Round notation one of the earliest transcriptions and an ethnomusicological study of a religious chant from the island of Zakynthos that may provide clues to specific features of medieval Byzantine intonations Other articles deal with aspects of Byzantine chants from the 12th century through the fall of the Empire in 1453 and into the 20th century Musical examples throughout the text underscore the authors theories and illuminate the beauty of the medium

Albanian Identity in History and Traditional Performance Eno Koço, 2021-07-05 This book represents a group of individual musical essays collected under common Albanian themes with a particular focus on historical identities and traditional musical performance It shows that at the beginning of the 18th century there was a growing interest in representing the Albanian hero Scanderbeg on the operatic stage as some well known composers of baroque music began to place a greater emphasis on music s dramatic power to elicit emotional response The book also notes that this sense of drama was also incorporated into the vocal forms such as opera

troves of experience These are continuously being modified also as a result of the exchange between individuals The perspective of the individuals in company leads the emphasis of the investigations to the ways in which the acts of performance interpretation and local discourse give shape to creative processes in multipart music making and to the definition of the individual collective and collaborative dimensions in this context Focusing on the creators rather than on the produced object the studies included in this volume explore the diversity of the roles powers symbolism meanings and values given to the polyphony of voices in secular and religious traditions based on extensive fieldwork experience The contributors to this volume also consider the UNESCO s Intangible Cultural Heritage List in this context as well as the role of local national and international awards By understanding culture as a drug whose absorption is realised within interacting cells culture appears as a cellular network and music as quite an efficient device for its functioning
