Item Analysis

10. B. Dimension

A. The student does not take the negative in the second term.

B. The student subtracts the 2 from the 2,000 and then the 0.002, instead of subtracting from the 2,000 and then adding from the 0.002.

C. The student does not subtract correctly in the second term and third term.

11. A. The student incorrectly calculates the denominator by subtracting the denominator when taking the denominator.

B. Correct answer.

C. The student incorrectly calculates the denominator by adding the denominator of the base.

D. The student incorrectly calculates the denominator by finding both the base and the exponent.

12. C. The student does not use the order of operations correctly.

B. Dimension

A. The student does not use the order of operations correctly.

D. The student does not use the order of operations correctly.

13. A. The student does not find the greatest common factor.

B. The student finds the greatest common factor but does not divide the numbers.

C. The student does not find the greatest common factor.

D. Dimension

14. **Answer:** The student demonstrates a thorough understanding of unit analysis and finding greatest common factors and whole numbers. The student explains the length of the hallway in terms of blocks, converts the length of the block to inches, and then divides the length of the hallway by the length of the block to find the number of blocks. The student shows a variety of strategies used for both part A and part B that use concrete representations.

Explanation: The student demonstrates an understanding of unit analysis and finding greatest common factors and whole numbers, but the student's part A and part B solutions demonstrate a conceptual barrier that is more extensive.

Explanation: The student demonstrates a partial understanding of unit analysis and finding greatest common factors and whole numbers. The student's work and explanation demonstrate a lack of general understanding.

Explanation: The student demonstrates a conceptual understanding of unit analysis and finding greatest common factors and whole numbers. The student's response is incomplete and demonstrates flaws.

Explanation: The student correctly converts a concrete measure to a standard unit measure, but is unable to determine the number of concrete blocks by using unit analysis and finding greatest common factors and whole numbers.
