**Crime Prevention in the Urban Community** Koichi Miyazawa, Setsuo Miyazawa, 2023-09-20 One of today's most pressing issues in criminology and crime prevention is the problem of crime in our cities and towns and its prevention. The topic of crime prevention in the Urban Community was discussed at the 47th International Course of the International Society for Criminology (ISC) held at Chuo University Tokyo. It was the very first time such an ISC meeting was held in Asia and this meant that finally a relatively large number of Japanese and other Asian participants were able to express their views on criminal policy and crime prevention in urban centres all over the world. Crime in urban communities is not an exclusively Western phenomenon but it is also a considerable problem in other parts of the world. This makes an interchange of ideas between Western, Eastern and Third World criminologists particularly important. General characteristics of the urban communities that suffer from a high crime rate are ethnic and racial tensions, a mix of old housing areas and new business districts, a prevailing sense of anonymity, slums and juvenile delinquency. The existence of these general characteristics besides mutual differences makes cooperation in the crime prevention sphere definitely worth the effort.

The Routledge Handbook of International Crime and Justice Studies Bruce Arrigo, Heather Bersot, 2013-08-15 The Routledge Handbook of International Crime and Justice Studies presents the enduring debates and emerging challenges in crime and justice studies from an international and multi-disciplinary perspective. Guided by the pivotal although vastly under-examined role that consumerism, politics, technology and culture assume in shaping these debates and in organizing these challenges, individual chapters probe the global landscape of crime and justice with astonishing clarity and remarkable depth. A distinguished collection of experts examine the interdisciplinary field of international crime and justice. Their contributions are divided into thematic sections including theory, culture and society, industries of crime and justice, systems of policing, law, corrections and punishment, the criminal enterprise, global technologies, media, crime and culture, green criminology, political violence, public health, criminology, the political economy of crime and justice. All the chapters include full pedagogy and instructional resources for easy referencing or classroom use. This Handbook will be useful for students, scholars and practitioners of law, medicine, history, economics, sociology, politics, philosophy, education, public health and social policy.
