A Panorama of Statistics
Eric Soweay, Peter Petocz, 2017-01-03 This book is a stimulating panoramic tour quite different from a textbook journey of the world of statistics in both its theory and practice for teachers students and practitioners At each stop on the tour the authors investigate unusual and quirky aspects of statistics highlighting historical biographical and philosophical dimensions of this field of knowledge Each chapter opens with perspectives on its theme often from several points of view Five original and thought provoking questions follow These aim at widening readers knowledge and deepening their insight Scattered among the questions are entertaining puzzles to solve and tantalising paradoxes to explain Readers can compare their own statistical discoveries with the authors detailed answers to all the questions The writing is lively and inviting the ideas are rewarding and the material is extensively cross referenced A Panorama of Statistics Leads readers to discover the fascinations of statistics Is an enjoyable companion to an undergraduate statistics textbook Is an enriching source of knowledge for statistics teachers and practitioners Is unique among statistics books today for its memorable content and engaging style Lending itself equally to reading through and to dipping into A Panorama of Statistics will surprise teachers students and practitioners by the variety of ways in which statistics can capture and hold their interest Reviews As befits the authors statement that this is not a textbook the structure is unusual There are twenty five chapters organised in five sections each beginning with a brief perspective of a theme in statistics and finishing with five questions related to that theme The answers provided to the questions in section six are as discursive and illuminating as the main body of the text Even if you are pretty sure you know the answer it is always worth checking what the authors have to say Chances are that you will learn something every time The glimpses and insights given into this enormous and far reaching discipline succeed in being bewitching entertaining and inviting coverage was never the aim In summary this splendid book lives up to the four
