Featuring fifty two classic and contemporary readings, *Exploring Philosophy of Religion: Text and Readings* is a topically organized anthology that presents broad coverage of seven major areas in the philosophy of religion: the concept of God, the existence of God, religious language, miracles and mysticism, belief in God, resurrection and immortality, and religious pluralism in a clear and accessible format. With guiding introductory material from Professor Cahn, each of the readings has been carefully selected and edited for maximum clarity and comprehensiveness; only the most essential material is included. To further foster understanding, the text also features an appendix consisting of Professor Cahn's monograph *God, Reason and Religion*, which provides a synthesis and interpretation of the crucial issues raised throughout the readings.
