This resource guide is intended to help libraries review their binding activities from a preservation perspective through the following: 1 suggesting a strategy for gaining expertise through reading and observation; 2 outlining a plan for evaluating the library's and the binder's practices and policies; 3 presenting a strategy for initiating change; and 4 identifying issues that merit attention and discussion. Thirty-six articles dealing with a binding program and relations with a binder are presented. A bibliography lists an additional 18 sources for further reading.
