Mike Mentzer John Little, 2025-05-20

Bodybuilding's foremost nonconformist and strikingly handsome intellectual, Mike Mentzer rose to the top of his sport despite opposition from industry insiders like rival Schwarzenegger. Written by his close friend of two decades, Mike Mentzer's *American Odyssey* chronicles Mentzer's journey in a fiercely competitive world to become one of the most iconic bodybuilders of all time.

**REBEL PHILOSOPHER BODYBUILDING ICON**

Mike Mentzer was a strikingly handsome man with a brilliant mind and a perfect physique, the first bodybuilder to receive a perfect score in both amateur and professional competitions. In the late 70s, Mentzer rose to the very top of his sport despite the efforts made by industry power brokers such as Arnold Schwarzenegger, who was featured in *GQ* magazine and profiled on national television. But he was also a man who wrestled with mental illness his entire life and ended up living on the streets and being sent to prison. Just when it seemed his career was over, he found it within himself to reboot his intellect and revolutionize bodybuilding training, arguing bodybuilders should not forsake their mental development in favor of developing their bodies. He became a pariah in the fitness industry, which only cared about selling supplements and other products, but a hero to legions of fans who earnestly sought truth.

Mike Mentzer's *American Odyssey* is the first biography of Mike Mentzer to appear in North America, written by his close friend of 21 years, John Little, one of the leading fitness researchers in North America. *Iron Man* magazine drawing upon audio recordings, letters, diary excerpts, as well as interviews with those closest to him, this is the true story of one man who stood up to an entire industry and paid the ultimate price.

**High Intensity Training (HIT)** Jürgen Giessing, 2016-05-17

This book is about High Intensity Training (HIT) and its scientific background for building lean muscle mass and reducing body fat with two or three workouts per week that last only 30 to 50 minutes each. There is a lot of confusion about how to train properly, with an incredible variety of suggestions that often contradict each other. These questions can be solved by looking at the main questions: a) How does training work, and b) What makes our body adapt in the way we want it to do? Sports science has the answers to these questions. High Intensity Training is the logical consequence of the answers that sport science provides us with.
