McGinn, 2017-04-13 Learning to Educate Proposals for the Reconstruction of Education in Developing Countries is a practical and strategic guide for education leaders and others who want to do more to improve the quality of curriculum learning teaching and assessment The book is also a philosophical guide that articulates and affirms the fundamental values and purposes of education in a rapidly changing world It confronts us with the opportunity and the necessity to unravel bedrock assumptions and stimulate further discussion about the nature of teaching and learning What does it take to change mindsets And how do we bring about reconstruction without losing our groundings and bearings The authors Ernesto Schiefelbein and Noel McGinn use the full weight of their extensive knowledge in education research teaching policy and action to argue that in order to reconstruct quality education we must begin by improving its foundation The result is a seasoned and superbly articulated examination of the principles and practices of teaching and learning which

focuses on the crucial need of all children to learn how to learn Innovative cultured and consistently captivating this book is bold and in the field of comparative and international education unprecedented Current and cutting edge knowledge on critically important dimensions of effective teaching and learning N Dri Th r se Assi Lumumba Cornell University A treasury of insights into the education challenge currently proposed by the UN global 2030 Agenda universal quality learning Kenneth King University of Edinburgh A helpful roadmap to the essential questions facing educators today Fernando M Reimers Harvard University

*Practicing Christian Education* Mark A. Maddix, James Riley Jr. Estep, 2017-07-18 This accessible introduction to the broad scope of Christian education focuses on its practice in the local church Two leading experts argue that Christian education encompasses all of the intentional practices of the local church including worship mission sacraments and teaching They explore Christian education not only as a field of study but as a vital congregational ministry showing how congregations can engage in discipleship and formation for spiritual growth The book features exercises and other pedagogical devices and includes reflection questions and suggestions for further reading

**Integrating Work in Theological Education** Kathleen A. Cahalan, Edward Foley, Gordon S. Mikoski, 2017-03-09 If only we could do a better job of helping students at connecting the dots theological educators commonly lament Integration often proposed as a solution to the woes of professional education for ministry would help students integrate knowledge skills spirituality and integrity When these remain disconnected incompetence ensues and the cost runs high for churches denominations and ministers themselves However we fail in thinking that integrating work is for students alone It is a multifaceted constructive process of learning that is contextual reflective and dialogical It aims toward important ends competent leaders who can guide Christian communities today It entails rhythms not stages and dynamic movement including disintegration Integrating work is learning in motion across domains and among and between persons It is social and communal born of a life of learning together for faculty staff administrators and students It is work that bridges the long standing gaps between school ministry practice and life It s a verb not a noun Here a diverse group of theological educators through descriptive case studies theological reflection and theory building offer a distinctive contribution to understanding integrating work and how best to achieve it across three domains in community curriculums and courses

**Failure Up Close** Jay P. Greene, Michael Q. McShane, 2018-01-17 For many reasons failure in education reform is rarely admitted Even though it is incredibly hard work to try and improve the enormous and diverse American education system because there are political consequences of admitting that a particular effort did not live up to its promises and pressure from philanthropic funders to show success unsuccessful efforts are often swept under the rug or papered over with public relations efforts that avoid wrestling with the tough realities of educational improvement This doesn t help anyone As any educator will tell you failure is an essential part of learning Insofar as education reform needs to be a learning movement itself it has to be able to admit where it has failed and learn from it Failure Up Close engages a select group of scholars from across the ideological spectrum to examine

particular education reform efforts of recent years that have not succeeded and offer lessons for school and system improvement that can be learned from them Rather than view failure as negative this volume looks at failure as an opportunity to learn and grow In fact the editors endeavored to find authors that would analyze reforms for which they had some fundamental sympathy The goal is not to bash particular efforts or castigate their supporters but rather to help those supporters understand how to do what they do better and ultimately do better for children **Yuk, Belajar dari Masalah!**

Dr. Dimas Qondias, M.Pd.,2023-03-09 Pendidikan saat ini harus mengajarkan siswa untuk berpikir secara kreatif dalam memecahkan masalah yang muncul di kehidupan nyata Siswa yang mampu beradaptasi dengan cepat pada perubahan dan mengaplikasikan konsep konsep ilmu pengetahuan dalam memecahkan masalah akan memiliki kemampuan adaptabilitas yang tinggi Untuk mencapai tujuan ini metode pembelajaran harus dirancang secara efektif di dalam dan di luar kelas Buku ini memberikan solusi tentang cara mengajarkan siswa dengan pendekatan berbasis masalah dan budaya yang beragam Dengan demikian siswa dapat mengembangkan kemampuan berpikir kritis dan juga belajar untuk menghargai perbedaan pendapat dan keberagaman di dalam kelompoknya Educational Reform Jordan T.
