The Truth Shall Set Your Wallet Free is aimed at debunking the myths that prevent people from achieving their wealth goals. And the first myth that needs to be bashed is that financial advisors are only for the very rich. In fact, there are more financial advisors who cater to modest-income Americans than those who cater to the rich. Myths propagated by the media, regulators, and even the financial industry itself harm every American from those at the poverty level to billionaires and everyone in between. This is the first time a holistic view of the entire advice market has been written by a non-advisor industry insider without bias from any of the financial services sectors. **CAIA Level II** Melissa Donohue, Urbi Garay, Ernest Jaffarian, Francois Lhabitant, Pierre-Yves Mathonet, Thomas Meyer, Richard Spurgin, Simon Stevenson, 2010-11-29. Alternative investments have become the brooding omnipresence of modern finance. As such, they are at the core of any significant discussion relating to asset allocation, risk management, and portfolio design. The topics outlined and discussed in this text provide a meaningful stop on the road toward understanding the complexities and rewards of these instruments. Garry Crowder, Director Institute for Alternative Investment Education and Research, Sponsored by the CAIA Association. The Chartered Alternative Investment Analyst (CAIA) program consists of a two-tier exam process: Level I and Level II, through which you may earn the CAIA charter. The Level I exam challenges your understanding of the alternative investment market's tools and terms and tests your knowledge of various trading strategies and performance measurements. The Level II exam assesses how you would apply the knowledge and analytics learned in Level I within an asset allocation framework. CAIA Level II Advanced Core Topics in Alternative Investments contains virtually all of the material on alternative investments that potential Level II candidates would need to know as they prepare for the exam: a multifaceted assembly of questions and problem-solving tasks. Since the tools and terms introduced in Level I provide the basis for the second level of this program, the information found here will continue to focus on alternative investments, hedge funds, private equity, commodities, and managed futures and credit derivatives but in greater depth and in the context of risk management and asset allocation. Whether you're a seasoned professional looking to explore new areas within the alternative investment arena
