English Language Arts, Grade 12 Module 2 PCG Education, 2015-12-18 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences, the standards require Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research, and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception, Blended learning experiences for teachers and leaders that enrich and extend the learning, A train the trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

ABOUT PCG EDUCATION PCG Education, a division of Public Consulting Group, works with schools, districts, and state education agencies to build their capacity for instructional and programmatic improvements. We provide curriculum development, coaching, professional development, and technical assistance services. Our work alongside educators and policy makers ensures effective implementation of both the Common Core State Standards and state-specific standards for college and career readiness.

Expertise in Every Classroom
Amanda Shuford Mayeaux,Dianne F. Olivier,2020-03-23 Expertise in every classroom should be the norm not the exception
We have all had that magical teacher who we remember years later We remember how this teacher made us believe we could
do anything The mythical experts exist and have much to teach us in our quest to build a powerhouse education system
Unfortunately forty years of research and over 25 years of reform models have led to few changes in the teaching profession
and in the overall outcomes in education Both national and international research demonstrates expertise in teaching can be
clearly defined and developed Countries around the world have successfully revamped their systems to develop and support
expert teachers While we grapple with failed value added models and are beginning to understand linkage to single
achievement test scores leaves out the impact teachers have upon the students peers and the culture as a whole We have
erected barriers in the form of scripted curricula overuse of testing and failed professional development models Yet some
teachers overcome all the barriers and develop expertise These teachers find avenues of development either in small pockets
of peers or individually While other countries are developing experts in mass numbers the United States is creating such
teachers in very small pockets Examining the thinking processes and practice of these teachers offers a glimpse into what we

should desire in every classroom in every school This book bridges both research and practical elements We believe expert teachers desire both We often discuss the disconnect between research and practice This book is intended to bridge both academic expectations and practitioner expectations We believe the academic community must make research accessible and user friendly to practitioners and practitioners should be at the forefront of research discussions We must blend the ivory towers of academia with the daily work in our schools if we are to create world class systems Expert teachers are both academic researchers and critical practitioners Reform movements are showing little progress We need to redefine the profession
