Normanni Del Sud:

Roger II of Sicily Hubert Houben, 2002-04-04 Although many studies have addressed important aspects of medieval southern Italy this was the first work for nearly ninety years to be devoted specifically to the life and reign of King Roger II the founder of the kingdom of Sicily The book provides a comprehensive introductory narrative of the reign and a clear scholarly analysis of its culture and of the development of royal government The kingdom created by the Norman Roger of Hautville in the first half of the twelfth century was a monarchy with highly developed absolutist ideas an elaborate bureaucracy a reasonably well filled treasury and a mixed cultural heritage reflected by the presence of Arabs and Greeks at court Based on many years of research in archives and libraries across Europe the book offers a valuable overview of one of the most striking periods in south Italian and European history El Arte Sículo-Normando. La cultura islámica en la Sicilia medieval Leone, Nicola Giuliano; Mauro, Eliana; Quartarone, Carla; Sessa, Ettore, 2010 La cultura islámica en la Sicilia medieval ilustra cómo el gran patrimonio artístico y cultural de los reyes que gobernaron la isla en los siglos X y XI fue asimilado y reinterpretado durante el posterior reinado normando y alcanzó su apogeo en la era resplandeciente de Ruggero II en el siglo XII Los espectaculares paisajes costeros y de montaña proporcionan el telón de fondo para las visitas a las ciudades los castillos jardines iglesias y antiguas mezquitas cristianizadas Diez recorridos le invitan a descubrir 91 museos monumentos y yacimientos en Palermo Monreale Mazara del Vallo Salemi Segesta Erice Cefalú y Catania entre otras localidades **A Cumulative Bibliography of Medieval Military History and Technology, Update 2004** Kelly DeVries, 2004-12-01 This is the first update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first volume and to present references to all books and articles published on medieval military history and technology from 2000 to 2002 These references are divided into the same categories as in the first volume and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first volume in essence Europe and the Middle East or again influences on and from this area The languages of these bibliographical references reflect this geography **Sicily and the Mediterranean in the Middle Ages** Hiroshi Takayama, 2019-03-22 This book is a collection of milestone articles of a leading scholar in the study of the Norman Kingdom of Sicily a crossroads of Latin Christian Greek Byzantine and Arab Islamic cultures and one of the most fascinating but also one of the most neglected kingdoms in the medieval world Some of his articles were published in influential journals such as English Historical Review Viator Mediterranean Historical Review and Papers of the British School at Rome while others appeared in hard to obtain festschriften proceedings of international conferences and so on The articles included here based on analysis of Latin Greek and Arabic documents as well as multi lingual parchments explore subjects of interest in medieval Mediterranean world such

1075 circa investirono i vertici della gerarchia sociale e politica nell'Impero romano germanico. Al contrario l'indagine si propone di mettere in luce le complesse interdipendenze tra i livelli micro e macro nei diversi ambiti della vita sociale religiosa e politica gettando al contempo le basi per una ripresa del dialogo tra diverse tradizioni di ricerca. This volume the product of a binational research group examines a series of deep and far reaching social institutional and cultural transformations that took place in the late eleventh and early twelfth centuries in the Holy Roman Empire. Particular attention is given to the causal link between these changes and the Investiture Contest which is critically reassessed. Four key thematic areas are explored through regional case studies focusing on German and Italian territories: techniques and practices of political discourse; structures and forms of power networks and relational dynamics; media communication. Looking beyond the Investiture Controversy does not in any way imply a relativisation of the significance of principle related conflicts that affected the upper echelons of the social and political hierarchy in the Roman German Empire from around 1075 onwards. Rather the investigation seeks to illuminate the complex interdependencies between the micro and macro levels in various aspects of social, religious and political life and to establish the groundwork for renewed dialogue between different research traditions.
