Oecd Dac Evaluation Quality Standards World Bank:

TDR performance framework 2018-2023, 2021-10-05 This framework is a key element in the implementation of TDR's new strategy. The Strategy covers the six year period from 2018 to 2023 and focuses on improving the health and well being of those afflicted with infectious diseases of poverty by fostering an effective global research effort and promoting the translation of innovation to health impact in disease endemic countries. The framework has the following stated objectives: Promote continuous performance improvement through organizational review, learning and informed decision making; enhance accountability to stakeholders including beneficiaries, partners and resource contributors; ensure strategic relevance and coherence of TDR's activities to meet the aspirations expressed in the vision, mission and strategy and their alignment with the 2030 Sustainable Development Goals; and ensure TDR's performance assessment is harmonized and consistent with international practices.

Evaluation Systems in Development Co-operation 2016 Review OECD, 2016-09-30 Evaluation is widely recognised as an important component for learning and improving development effectiveness. Evaluation responds to public and taxpayer demands for credible information and independent assessment of development co-operation activities.

Reforming Justice Livingston Armytage, 2012-05-03 Despite the disappointing results of fifty years of judicial reform, evidence from Asia suggests that a shift in justice reform efforts could result in important progress being made. Livingston Armytage argues that reform should focus on promoting fairness and equity as opposed to economic growth and good governance. Justice is constitutive to human wellbeing and cannot be trumped by economics. Finding a balance between utility and aggregate wellbeing on the one hand and equity and individual wellbeing on the other is at the crux of this important book.

Foreign Aid Phyllis R. Pomerantz, 2023-07-04 Foreign Aid Policy and Practice offers a complete overview of the basics of foreign aid: Who is it for? Who pays for it? Why does it exist? What is it spent on? How much is it? And most important, does it work? The aid debate has been flooded by academic studies and popular books that either challenge or champion the effectiveness of aid. Most presume that the reader already knows the basic facts and characteristics of the aid industry. This book provides readers with a comprehensive summary of the background, actors, core principles and policies, and intended and unintended outcomes of foreign aid, followed by a more informed and balanced treatment of the key controversies and trends in aid today. Drawing on the author's 25 years experience in development practice and 15 years in teaching, the book reflects on recent efforts to accelerate aid's impact and concludes by taking a look at the future of aid and the headwinds it will face in the first half of the 21st century. Perfect for university teaching at advanced undergraduate and graduate levels, this book will also encourage development practitioners, policy makers and members of the public to engage in more informed debates about aid and development finance.

Measuring the Impact of Peacebuilding Interventions on Rule of Law and Security Institutions Vincenza Scherrer, 2012-05-14 Since the 1990s, internationally supported peacebuilding interventions have become increasingly prominent. Activities focusing on rule of law and security institutions

are a key component of this agenda. Despite increasing calls for more rigorous analysis of the impact of peacebuilding interventions, conceptual advances have been limited. There is little clarity on what is working, what is not, and why. This SSR Paper seeks to address this gap by mapping relevant approaches and methodologies to measuring impact. It examines how international actors have approached these questions in relation to support to rule of law and security institutions in complex peacebuilding environments. Most significantly, the paper demonstrates that measuring impact is not only feasible but necessary in order to maximise the effectiveness of major international investments in this field.

Crossover of Audit and Evaluation Practices Maria Barrados, Jeremy Lonsdale, 2020-02-24. *Crossover of Audit and Evaluation Practices* brings together academic analysis with insights from practitioners to discuss the potential for collaboration in audit and evaluation practices between three professional disciplines. Clearly written and thoughtfully organized, this volume is structured in three parts to deal with theory, practice issues, and how the practices have worked together. Part One provides definitions of performance audit, internal audit, and program evaluation. Part Two addresses several challenges that professionals face in applying these standards and principles. Part Three contains examples of organizational collaboration between the practices, how they have worked together, and the lessons that were learned from that experience. Specific cases from the Government Accountability Office and UNESCO UNDP and Inter Americas Development Bank illustrate what has worked or not and suggest reasons why. *Crossover of Audit and Evaluation Practices* offers even the most skilled and experienced professional insight on how to bridge some of the divides. It will help generate a better understanding of the activities and services that are either imposed on them or are freely available and help to stimulate their optimal use.

Development Finance Yury Zaytsev, 2025-06-16. This book analyses the role of development finance in international development cooperation. The author explains the current transformations in the global development finance architecture and discusses new concepts for development finance proposed by multilateral and bilateral donors. The book is divided into three parts. The first part is devoted to the theoretical foundations of development finance and its impact on socio-economic development and aid effectiveness in partner countries. The second part presents insights on the current trends in multilateral and bilateral development finance. In the last section, the book examines the ramifications of development finance in partner countries and evaluates its impact in private and public sectors. The book will appeal not only to academics in the field but also to practitioners working in aid, development, and finance.

and Programs Robert Picciotto, Ray C. Rist, 1995-10-02 This issue of New Directions for Evaluation deals with the special evaluation problems of programs in the developing world Over the last two decades the framework of economic and social development policy and practice has been transformed This is due in part to evaluation lessons which have helped to shape the new development priorities toward sustainability participation and institutional development In turn evaluation must deal with the consequences of a more demanding agenda a more fractured development constituency and a vastly more complex set of analytical questions This publication presents the views of development policy makers practitioners and evaluators on the kinds of adjustments needed in the approaches instruments and processes used by development evaluators The chapters were discussed in draft form at a Conference on Evaluation and Development hosted by the World Bank in Washington D C in December 1994 The resulting collection offers a consistent framework for further debate and proposes new emphases for development evaluation This is the 67th issue in the journal series New Directions for Evaluation For more information on the series please see the Journals and Periodicals page **The World Bank Annual Report 1998** World Bank, 1998

How to Build M & E Systems to Support Better Government Keith Robin Mackay, World Bank. Independent Evaluation Group, 2007 The purpose of this volume is to help governments in their efforts to build strengthen and fully institutionalize their monitoring and evaluation M E systems not as an end in itself but in support of improved government performance in other words sound governance The volume brings together the considerable experience accumulated by the World Bank's Independent Evaluation Group IEG in its longstanding program of support for governments and Bank staff in their efforts to build M E systems It also draws on the growing body of literature from other sources on this issue There is currently a great deal of emphasis on results and on being able to demonstrate performance Part one starts by focusing on exactly what M E has to offer to governments Part two focuses on the experience of several countries that have succeeded in building a well functioning government M E system Part three analyzes the lessons from building government M E systems in these and many other countries both developing and developed Ways to strengthen a government M E system are presented in Part four Part five maps out those issues where international experience with government M E systems is not well understood or well documented Finally part six provides a series of commonly asked questions on M E and their answers
