When marketing managers and financial managers join forces within any business the result can often be poor communication on financial criteria and goals The risk of this situation occurring is inevitably present when those with different professional backgrounds and roles are working in accordance with their own norms In his seminal 1956 paper on general systems theory the economist Kenneth Boulding referred to the phenomenon of specialised ears and generalised deafness which can be seen to exist when marketing managers are financially illiterate or when financial managers lack the necessary insights to design implement and operate accounting systems which are useful to marketing managers in carrying out their roles It is increasingly difficult to attach credence to the idea of marketing managers who lack financial skills or financial managers who fail to relate to the context in which marketing managers operate Understanding the marketing accounting interface is therefore important in generating emergent properties from the interaction of marketers and accountants whereby the whole is greater than the sum of the parts The chapters in this volume seek to address this challenge This book was originally published as a special issue of the Journal of Marketing Management     *Subject Guide to Books in Print* ,1997     Accounting and Finance: Understanding and Practice Neeta Shah,Danny Leiwy,Robert Perks,2025-01-15 Now in its fifth edition Accounting and Finance Understanding and Practice has been fully updated to align with the latest International Financial Reporting Standards It offers expanded coverage on the core areas of teaching relevant to students studying introductory courses in Accounting and Finance Ample practical examples updated case studies and end of chapter questions help students easily relate accounting and finance to the business world Key features The text is organized in three parts nancial accounting nancial management and management accounting New chapter on Sustainability a growing area of research within accounting and business Enhanced discussion on corporate governance and fair value accounting Numerous up to date references to businesses and well known companies throughout Running case study on Marks Spencer across every chapter to highlight the relevance of each topic to a real world example Updated Accounting in Context case studies exemplify issues discussed in each chapter featuring real companies such as Watches of Switzerland Benevolent AI and Shein     *Forthcoming Books* Rose Arny,1997     **Sm Management Accounting** Hansen,2002-01-01     Books in Print Supplement ,1979     **Examination Book and Test Bank to Accompany Managerial Accounting: Tools for Business Decision Making** Jerry J.
