Government Institutions: Effects, Changes and Normative Foundations Hendrik Wagenaar,2012-12-06 Research on government institutions is one of the most exciting intellectual areas in political science and policy studies today Increasingly it is recognized by scholars in these fields that effective and legitimate policies depend on the design and maintenance of complex institutional arrangements This book brings together some of the leading scholars in institutional research in The Netherlands Their work addresses such perennially difficult questions in institutional research such as How do we understand institutional change How do we measure the effects of institutions on societal sectors and public policy How do the normative foundations of government institutions influence their functioning What are the principles of effective and legitimate institutional design Through analysis of well researched examples ranging from the fabled Dutch poldermodel through the transformation of the welfare state through privatizations of the Dutch telecommunications industry to the work of welfare officials these authors demonstrate the interpenetration of normative empirical and design issues in institutional theory The book is intended for scholars and graduate students in political science public policy public administration and law

Contemporary Public Administration in New Zealand Rodney

Scott, Peter Hughes, 2025-03-27 This book provides an updated account of New Zealand public administration including insider stories of leading reform. Hailed for its distinctiveness and high performance, New Zealand's radical public service reforms of the 1980s were studied, praised, criticised, and emulated around the world. However, New Zealand has not stood still. The 80s model had tremendous strengths, reducing some problems but also creating new problems and exacerbating others. More recent reforms layered cultural and behavioural approaches on top of earlier changes. This book, co-authored by the head of the New Zealand public service, describes decades of change: what worked, what didn't, and what challenges remain.

Ethics in Public Management H. George Frederickson, Richard K. Ghere, 2013-03-16 This book presents cutting edge commentaries by leading scholars that address issues of public ethics in the current period of broken politics and challenged legitimacy.

Government by Fiat Warwick Funnell, 2001 Looks at the accountability or increasingly the lack of accountability of Australia's state and federal governments. Its focus is on the government directed public sector reforms of the last two decades that have made governments less accountable for service delivery and the repercussions these reforms have had.

Norway in Transition Oyvind Osterud, 2013-10-18 The transformation of Norway is a magnifying glass to processes of political change in European countries generally. In this book a group of Norway's most prominent political scientists closely analyzes the forces of change ranging from the political apparatus, the mode of partisan mobilization and the development of political trust to the new gender relations and the strains on the established elite consensus. This volume shows how Norway is an embodiment of the Nordic Model. Norwegian society and politics have attracted wide spread interest for three interrelated reasons: a strikingly egalitarian and cooperative model for public private relations; a stable and rich country on the outside of the European Union and a notable engagement in moral policy areas globally. Now the model is in flux for domestic as well as external reasons. Rule by popular consent is in question with a more fragile chain of governance and a slow erosion of mass parties. The model is transformed from below through the changing democratic infrastructure as well as from above with privatization and market reform in the public sector. The focus is Norway but the book is a comparative analysis of a paradigm case with relevance far beyond its own borders. This book was previously published as a special issue of the leading journal *West European Politics*.

Managerialism Mark Considine, Martin Painter, 1997 Looks at the Australian public sector reforms of the 1980s and 1990s with a critical eye and deals with the major criticism that these changes have resulted in the abandonment of public service ethics.

Key Concepts and Debates in Health and Social Policy Nigel Malin, Stephen Wilmot, Jill Manthorpe, 2002 This book identifies key social concepts and explores their relevance for health and welfare policy and for the practice of professionals such as nurses and social workers who are involved in the delivery of services and provision. The text adopts an ideologies of welfare approach using examples of recent policy shifts to illustrate theoretical and political tensions. This shift in emphasis away from the traditional approach of documenting policy areas is an important feature of the book. The concepts are organized in terms of

doctrinal contests This allows the authors to explore the tension between different approaches and ways of defining social policy The aim is to help professionals identify these tensions to be aware of the strategic choices which have been made in national and agency policy and to locate their own practice in relationship to these choices It draws upon the continuing debate around the Third Way and New Labour policies as they apply to health and social welfare and identifies tensions within a non ideological pragmatic set of practices *The Foundations of Bureaucracy in Economic and Social Thought* Edward Page,2004 The State Under Contract Jonathan Boston,1995 Governmental restructuring is much in vogue Throughout the developed and developing world governments are selling state assets reorganising government departments contracting out publicly funded services and reforming their management systems **Management in Government** ,1997

Public Management Jonathan Boston,1996 This work describes and critically assesses the merits of the new model of public management in New Zealand It examines the model s theoretical origins and identifies the administrative principles and doctrines upon which it is based It also explores how the new model operates in practice how its outcomes compare with those intended and what impact it has had both positive and negative on the governance of New Zealand Managing Police Corruption Richard H. Ward,Robert McCormack,1987 **The Politics of Public Service Bargains** Christopher Hood,Martin Lodge,2006-06 The traditional understandings that structure the relationships between public servants and the wider political system are said to have undergone considerable change But what are these formalized and implicit understandings What are the key dimensions of such bargains In what conditions do bargains rise and fall And has there been a universal and uniform change in these bargains The Politics of Public Service Bargains develops a distinct perspective to answer these questions It develops a unique analytical perspective to account for diverse bargains within systems of executive government Drawing on comparative experiences from different state traditions this study examines ideas and contemporary developments along three key dimensions of any Public Service Bargain reward competency and loyalty and responsibility The Politics of Public Service Bargains points to diverse and differentiated developments across national systems of executive government and suggests how different bargains are prone to cheating by their constituent parties This study explores the context in which managerial bargains widely seen to be at the heart of contemporary administrative reform movements are likely to catch on and considers how cheating is likely to destabilize such bargains *Globalisation: effects on enterprises, employment and government* Michael Harold Stierle,1999 Health and Public Policy in New Zealand Peter Davis,2001 Health and Public Policy in New Zealand explores the key changes that have occurred over the last fifteen years and drawing on a body of rich case study material makes a significant contribution to the study of health policy The text is divided into three parts Part I outlines and discusse the framework for analysing health policy including various models and theories policy making processes issues around M ori health policy and rsearch strategies Part II looks at recent restructuring of the health system and explores the various factors that have influenced changes in health policy Part III

presents a series of illuminating case studies covering mental health general practice hospitals and associated services tobacco control and alcohol policy World Hospitals and Health Services ,2005 Public Sector ,2006 **International Encyclopedia of the Social & Behavioral Sciences** Neil J. Smelser,Paul B. Baltes,2001 The largest work ever published in the social and behavioural sciences It contains 4000 signed articles 15 million words of text 90 000 bibliographic references and 150 biographical entries
