Actor Network Theory And After:

Actor Network Theory and After John Law, John Hassard, 1999-05-04 Actor network theory is a powerful approach which combines the insights of post structuralism with an analysis of the materials of social life This controversial and path breaking volume extends ANT beyond studies of technology power and organisation to the body subjectivity politics and cultural difference and puts it into cutting edge dialogue with feminism anthropology psychology and economics

Reassembling the Social Bruno Latour, 2007-09-06 Reassembling the Social is a fundamental challenge from one of the world s leading social theorists to how we understand society and the social Bruno Latour s contention is that the word social as used by Social Scientists has become laden with assumptions to the point where it has become misnomer When the adjective is applied to a phenomenon it is used to indicate a stabilized state of affairs a bundle of ties that in due course may be used to account for another phenomenon But Latour also finds the word used as if it described a type of material in a comparable way to an adjective such as wooden or steely Rather than simply indicating what is already assembled together it is now used in a way that makes assumptions about the nature of what is assembled It has become a word that designates two distinct things a process of assembling and a type of material distinct from others Latour shows why the social cannot be thought of as a kind of material or domain and disputes attempts to provide a social explanations of other states of affairs While these attempts have been productive and probably necessary in the past the very success of the social sciences mean that they are largely no longer so At the present stage it is no longer possible to inspect the precise constituents entering the social domain Latour returns to the original meaning of the social to redefine the notion and allow it to trace connections again It will then be possible to resume the traditional goal of the social sciences but using more refined tools Drawing on his extensive work examining the assemblages of nature Latour finds it necessary to scrutinize thoroughly the exact content of what is assembled under the umbrella of Society This approach a sociology of associations has become known as Actor Network Theory and this book is an essential introduction both for those seeking to understand Actor Network Theory or the ideas of one of its most influential proponents

Applying the Actor-Network Theory in Media Studies Spöhrer, Markus, Ochsner, Beate, 2016-08-24 Actor Network Theory ANT originally a social theory seeks to organize objects and non human entities into social networks Its most innovative claim approaches these networks outside the anthropocentric view including both humans and non human objects as active participants in a social context because of this the theory has applications in a myriad of domains not merely in the social sciences Applying the Actor Network Theory in Media Studies applies this novel approach to media studies This publication responds to the current trends in international media studies by presenting ANT as the new theoretical paradigm through which meaningful discussion and analysis of the media its production and its social and cultural effects Featuring both case studies and theoretical and methodical meditations this timely publication thoroughly considers the possibilities of these disparate yet divergent fields This book is intended for use

Pot/potter Entanglements and Networks of Agency in Late Woodland Period (c. AD 900-1300) Southwestern Ontario, Canada Christopher M. Watts, 2008 Complementary strands of thought are here woven together to further the notion that people and things are entangled in interdependent webs of action and a view of social life as engendered by the ways we apprehend and interact with the material world It is argued that material culture can be considered agential insofar as it serves to condition certain sensory responses from its users An analysis of Late Woodland period pottery production in southwestern Ontario provides a case study over 800 earthenware vessels are analyzed from Iroquoian and Algonquian Western Basin sites The results suggest that Iroquoian potting practices were organized around a design repertoire to which most potters subscribed These patterns contrast with the Western Basin assemblages which hint at a greater degree of design heterogeneity and a wider array of choice The discordant nature of Western Basin decorative practices points to a form of human non human interaction markedly different from the milieu experienced by Iroquoian artisans

Embodying Modernity and Postmodernity Sandra C. Bamford, 2007 This collection of original essays critically examines the relationship between ritual embodiment and social change in the South Pacific Over the past few decades the societies of Melanesia have undergone profound and revolutionary social change Encounters with colonialism postcolonialism and the forces of globalization have put indigenous peoples in touch with processes of state formation late capitalist culture and the emergence of a complex network of transnational identities In addition to shaping the contours of the nation state these developments are having a profound impact on the nature of embodied experience In recent years many Melanesian societies have witnessed the rise of charismatic Christianity changing gender configurations and the growing use of consumerism as a means of defining new social and political hierarchies Embodying Modernity and Post Modernity provides detailed analyses of those social changes that are becoming part of contemporary Melanesia Written by experts with first hand fieldwork experience this volume furnishes novel insights concerning the social implications of modernity and postmodernity More specifically it addresses two interrelated themes how the rise of new social and economic forms has influenced the ways in which Melanesians think about experience and act upon their bodies and the ways in which these new forms of bodily experience contribute to the emergence of new social and cultural identities This book is part of the Ritual Studies Monograph Series edited by Pamela J Stewart and Andrew Strathern Department of Anthropology University of Pittsburgh While this volume will be of particular interest for regional specialists and theorists of the body it also makes important contributions to historical analysis of colonial and post colonial interpretations of modernity and ritual

studies The editor also deserves credit for bringing together a cohesive text one in which the articles usefully speak to and complement one another Anthropological Forum This book is a must read for scholars of Melanesia and all scholars of the Anthropology of the Body There is much to be gleaned theoretically from these ethnographically rich essays Oceania

Connectivity, Networks and Flows Andreas Hepp,2008 This book offers its readers a critical engagement with three key concepts for social and communication theory today connectivity networks and flows The contributors are committed to conceptualizing contemporary communications in a changing world They point to globalizing and deterritorializing processes and to the increasing significance of mobilities in late modern existence yet this is also a book about the continuing importance of locality senses of place and physically copresent interaction in daily living Connectivity Networks and Flows combines theoretical reflection with analysis of specific media and cultural practices Featured examples of such practices include uses of mobile phones and the Internet activities of online and offline working and socializing and constructions of liveness and immediacy in electronically mediated communication The book will be of particular interest to researchers and students in communications media and cultural studies sociology and social theory BOOK JACKET **The Murmuring of the Artistic Multitude** Pascal Gielen,2010 Art sociologist Pascal Gielen defends the hypothesis that the globalized art scene is an ideal production entity for economic exploitation These days the work ethic of the art world with its ever present young dynamic flexible working hoursm thematic approach short term contracts or lack of contracts and its unlimited energetic freedom is capitalized within the cultural indyustry and has been converted into a standard production model In the glow of the crative cities and the creative industry governments embrace this post Henry Ford work model and seamlessly link it to the globally dominant neo liberal market economy Back cover *I, Chatbot* Mark Christopher Marino,2006 **Academy of Management Learning and Education** ,2008 *Cultural Heritage Beyond the "state"* Chiara De Cesari,2008
