## **Final Year Projects For Electrical Engineering Students:**

**Implementing Communities of Practice in Higher Education** Jacquie McDonald, Aileen Cater-Steel, 2016-11-23 In this edited collection the authors pick up the communities of practice CoP approach of sharing practice in their reflection on the experience of taking their CoP vision from a dream to reality Their stories articulate the vision the passion and the challenge of working within and or changing existing institutional culture and practice The book discusses strategies that worked and considers the lessons learnt to inspire future dreamers and schemers The multiple perspectives provided in the case studies will assist higher education leaders as well as academic and professional staff in establishing or assessing CoPs The book offers insights into implementation strategies practical guidelines and ideas on how CoP theoretical underpinnings can be tailored to the higher education context [Contribution from Electrical Engineering Research Division](#) ,1922

*Engineering Education* John Heywood, 2006-01-24 A synthesis of nearly 2 000 articles to help make engineers better educators While a significant body of knowledge has evolved in the field of engineering education over the years much of the published information has been restricted to scholarly journals and has not found a broad audience This publication rectifies that situation by reviewing the findings of nearly 2 000 scholarly articles to help engineers become better educators devise more effective curricula and be more effective leaders and advocates in curriculum and research development The author s first objective is to provide an illustrative review of research and development in engineering education since 1960 His second objective is with the examples given to encourage the practice of classroom assessment and research and his third objective is to promote the idea of curriculum leadership The publication is divided into four main parts Part I demonstrates how the underpinnings of education history philosophy psychology sociology determine the aims and objectives of the curriculum and the curriculum s internal structure which integrates assessment content teaching and learning Part II focuses on the curriculum itself considering such key issues as content organization trends and change A chapter on interdisciplinary and integrated study and a chapter on project and problem based models of curriculum are included Part III examines problem solving creativity and design Part IV delves into teaching assessment and evaluation beginning with a chapter on the lecture cooperative learning and teamwork The book ends with a brief insightful forecast of the future of engineering education Because this is a practical tool and reference for engineers each chapter is self contained and may be read independently of the others Unlike other works in engineering education which are generally intended for educational researchers this publication is written not only for researchers in the field of engineering education but also for all engineers who teach All readers acquire a host of practical skills and knowledge in the fields of learning philosophy sociology and history as they specifically apply to the process of engineering curriculum improvement and evaluation **CREG Journal Archive: 15 to 25** Mike Bedford (editor), David Gibson (technical editor), 2012 [Proceedings of the Fifteenth International Conference on Management Science and Engineering Management](#) Jiuping Xu, Fausto Pedro García Márquez, Mohamed Hag
