Munter, Julia Grant, 2004 *Robinson Munter and Grant's Financial Statement Analysis: A Global Perspective* is designed especially for users of financial statements. Takes a financial statement analysis perspective. The focus is on the user of financial statements and not the preparer of financial statements. The emphasis is on the analysis and use of financial reports. Knowledge of debits and credits is not required. Emphasizes a global perspective by presenting both International Accounting Standards and U.S. GAAP. Uses a step-by-step presentation to take students through the financial statement analysis process from understanding the financial statements to valuation. Motorola and Nokia are used as running case examples throughout the text. Additional real-world examples are integrated into each chapter as appropriate. Assignment Materials: Many of the end-of-chapter problems have been reproduced from AIMR CFA R examination released questions and sample examinations. Each chapter has a case derived from real company financial statements that can be used for class discussion or student projects.

*Stepping Up: Financial Reporting Systems in an Expanding Global Economy* The United States already has the most stringent financial reporting requirements in the world due to its Generally Accepted Accounting Principles (GAAP). Now financial institutions must also contend with the global impact of new stipulations regarding auditing and reporting practices. This book provides comprehensive guidance as to what companies should now be doing to make their financial reporting more efficient and reliable and illustrates how a sound internal control policy based on the work of the Treadway Commission and the COSO report will be a requirement for the organization that wants to compete in the evolving global marketplace. Based on months of research by the author, *Reliable Financial Reporting and Internal Control* brings together three issues crucial to risk management: Internal control and international accounting standards; Reliable financial reporting as defined by COSO; The New Capital Adequacy Framework by the Basle Committee on Banking Supervision. Also covered is the work accomplished by the Federal Reserve and the International Organizations of Securities Commissions (IOSCO). Here is a must-have guide for CFOs, controllers, and other corporate financial personnel in multinational companies and other companies who do business globally, as well as internal and external auditors, bank managers, and brokers.
