2017 Budget Summary Western Cape:

Marriages of Inconvenience Susan Booyesen, 2021-12-12 Marriages of Inconvenience The politics of coalitions in South Africa is a research based volume that collates and interprets lessons that South Africa should take to heart in managing interparty coalitions It draws from domestic experiences as well as from case studies on the rest of the African continent and generic instances further afield Coalitions in various iterations have been a part of the South African polity since the attainment of democracy in 1994 This started nationally with a grand coalition in the form of a Government of National Unity as mandated in the interim constitution Coalitions have also found expression in some of the country s provinces After the transition multiparty governments were sustained at national and provincial levels either as a matter of necessity due to election outcomes or for other political considerations At local government level coalitions have been relatively commonplace in South Africa from the onset of democratically elected municipalities in 2000 with many situations where no single party attained an absolute majority This gained prominence from 2016 when many metropolitan governments and some large towns became sites of coalition politics

A House Divided Crispian Olver, 2019-10-10 It s 2018 and Cape Town is wracked by its worst drought on record The prospect of Day Zero when the taps will run dry is driving citizens into a frenzy Then the ruling Democratic Alliance removes control of the water issue from Mayor Patricia de Lille While politicians turn on each other revealing deep lying faultlines and new enmities it raises a critical question who will lead the Mother City through the crisis Against this fraught backdrop author and academic Crispian Olver resolves to explore how the city of his childhood is run and he sets his sights in particular on the relationship between local politicians and property developers Interviewing numerous people including many dropped from the City administration in often questionable circumstances he uncovers a Pandora s box of backstabbing infighting and backroom deals Olver explores dodgy property developments in the agriculturally sensitive area of Philippi on the scenic West Coast and along the glorious and lucrative Atlantic Seaboard delves into attempts to hijack civic associations and exposes the close yet precarious relationship between the mayor and City Hall s laptop boys And in blistering detail he gets to grips with the political meltdown within the DA and the defection of De Lille to form her own party

South African Schooling: The Enigma of Inequality Nic Spaull, Jonathan D.

Jansen, 2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much

wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Prisoners of the Past Steven Friedman,2021-06-01 Building on the work of economic historian Douglass North and Ugandan political scholar Mahmood Mamdani Friedman argues that the difficulties besetting South African democracy are legacies of the past not products of the post 1994 era South Africa s democracy is often seen as a story of bright beginnings gone astray a pattern said to be common to Africa The negotiated settlement of 1994 it is claimed ended racial domination and created the foundation for a prosperous democracy but greedy politicians betrayed the promise of a new society In Prisoners of the Past Steven Friedman astutely argues that this misreads the nature of contemporary South Africa Building on the work of the economic historian Douglass North and the political thinker Mahmood Mamdani Friedman shows that South African democracy s difficulties are legacies of the pre 1994 past The settlement which ushered in majority rule left intact core features of the apartheid economy and society The economy continues to exclude millions from its benefits while racial hierarchies have proved stubborn apartheid is discredited but the values of the pre 1948 colonial era the period of British colonization still dominate Thus South Africa s democracy supports free elections civil liberties and the rule of law but also continues past patterns of exclusion and domination Friedman reasons that this path dependence is not as is often claimed the result of constitutional compromises in 1994 that left domination untouched This bargain was flawed because it brought not too much compromise but too little Compromises extended political citizenship to all but there were no similar bargains on economic and cultural change Using the work of the radical sociologist Harold Wolpe Friedman shows that only negotiations on a new economy and society can free South Africans from the prison of the past

Democracy Disconnected Fiona Anciano,Laurence Piper,2018-10-03 Why is dissatisfaction with local democracy endemic despite the spread of new participatory institutions This book argues that a key reason is the limited power of elected local officials especially to produce the City City Hall lacks control over key aspects of city decision making especially under conditions of economic globalisation and rapid urbanisation in the urban South Demonstrated through case studies of daily politics in Hout Bay Democracy Disconnected shows how Cape Town residents engage local rule In the absence of democratic control urban rule in the Global South becomes a complex and contingent framework of multiple and multilevel forms of urban governance FUG that involve City Hall but are not directed by it Bureaucratic governance coexists alongside market developmental and informal forms of governance This disconnect of democracy from urban governance segregates people spatially socially but also politically Thus while the residents of Hout Bay may live next to each other they do not live with each other This book will be a valuable resource for

students on programmes such as urban studies political science sociology development studies and political geography
