## Key Historic Dates:

- 1848: Public Health Act
- 1866: Sanitary Act
- 1918: Maternity & Child Welfare Act
- 1928: Penicillin Discovered
- 1948: National Health Service is established

### The Clean Air Act 1956

This granted local authorities the power to control emissions of smoke, grit, dust and fumes from industrial premises and factories.

### The Education Act 1944

stipulates that maintained schools must provide free school meals to disadvantaged pupils, aged between five and sixteen years of age.

The **school food review** is introduced. The programme's success led to the rollout in 2009-10 of its review for all primary school aged children in the UK every year.

**Trans fats labelling** on packaged food is rolled out. It encourages the nutritional content of food to be colour coded on packaging.

The **Star Review** is published. The report considers what is needed to achieve the Government's **50% Smokefree target**, making 5% recommendations, including the promotion of e-cigarettes as an effective 'step to stop' tool to help people quit smoking.

### Government Smoke Free Generation - Tobacco & Vapes Bill

introduced to parliament March 2024 will prevent the legal sale of tobacco products to anyone born after 1 Jan 2009.

1928, Dr Alexander Fleming's discovery of Penicillin as an antibiotic was one of the most important scientific discoveries in the history of medicine.

The responsibilities of Medical Officers of Health (MOH) were extended in parallel with the Local Government Act of 1929, to include school health services, food control and hygiene, and housing. Housing Act forced local councils to clear all remaining slum housing and provide further subsidies to re-house inhabitants.

**1967:** The WHO announced the International Smallpox Eradication Programme, aimed to eradicate smallpox in more than 100 countries, through surveillance and vaccination.  
**1980:** 1st World Health Assembly declares the **world free of smallpox**.  
**1985-87:** Water fluoridation scheme is introduced in Walsall Borough.  
**1988:** Combined MMR child vaccinations for Measles, Mumps & Rubella introduced.

The **Health Act 2006** is passed, affecting the sale of tobacco products. The Act places a **ban on smoking** in enclosed public places and increased the age of purchase for tobacco products. In **Scotland** the **Alcohol Minimum Pricing Act 2012** set a baseline at which alcohol can be sold.

**Soft Drinks Industry Levy** taxes manufacturers based on the sugar content of their product. It forces product reformulation and recognises the role of the food and drink industry in the public making healthier choices.

### We Are Walsall 2040

"By 2040 we will be a walking, cycling borough where people are healthy and the air is clean and safe."

**Outcomes:**  
Narrow the gap in life expectancy and healthy life expectancy.  
Stopping smoking, eating healthy, maintaining a healthy weight, and reducing drug & alcohol intake can have a significant impact on our current and future health.

Carney, 2022-03-10 *A History of Public Health From Past to Present* uses a structured format to study public health from antiquity to the present time. After a brief introduction, this concise text illuminates defining moments in public health history through stories that illustrate people, principles, and challenges. These are followed by a discussion of history's relevance to contemporary practice. Suggestions for additional study, discussion questions, and references complete each chapter. Key Features: Emphasis on selected narratives, more detailed stories to highlight defining moments in public health history, and help readers to remember key historical events, their significance, and determine their relevance to today's issues and practice. Easily accessible references and primary sources are included for additional study and context. Ample visuals and graphics highlight people, priorities, public opinion, and trends relevant to the time period and more.

*Public Health in the 21st Century: Current issues in public health policy* Madelon Lubin Finkel, 2011. Volume one covers history, developments, and current issues in public health. Volume two is about disease treatment and prevention, and volume three discusses health disparities and policies that affect public health. The last volume also looks at cutting edge research to show what the future may hold, discussing how we will deal with, for example, emerging threats to public health stemming from global warming, the mismanagement of natural resources, multi-drug resistant diseases, and the explosion of chronic disease. Each chapter presents an up-to-date scholarly review of a specific issue and discusses the challenges that nations, communities, and individuals must address to create a healthier world.

**EBOOK: Public Health** Angela Scriven, Sebastian Garman, 2007-08-16. From Sure Start to healthy workplaces, health action zones, to community regeneration, this volume makes the leap from research to action. Professor Richard Parish, Chief Executive, The Royal Society for the Promotion of Health. What is public health and how has it changed over time? What is the social context of public health and what are the dominant 21st century issues? What strategies are in place to address population health? This important book makes a significant contribution to the emergent body of public health knowledge by examining debates around the social context of health, including key socio-economic, environmental, and cultural factors. In doing so, the text locates within a social context the theoretical debates and problems surrounding public health and analyzes the practical public health strategies and solutions that have been developed to address them. The book moves beyond traditional theoretical discourse to include coverage of the thinking frameworks and processes that are actively shaping public health in the 21st century. Provides tangible examples of public health strategies that have recently been introduced to tackle the social determinants of health. The use of media strategies to promote health. Public Health is key reading for students undertaking courses in health studies, health promotion, nursing, public health, social policy, social work, and sociology. In addition to a wide student readership, the book's focus on public health action and current practice also makes it highly relevant to professionals. The text brings together a distinguished group of practitioners, social scientists, and public health experts who contribute their ideas and research.
