

BCG Investor Perspectives Series | Q1 and Q2 2025

March 24–25, 2025, and again April 8–9, 2025, BCG surveyed leading investors to understand their perspectives on the US economy, the US stock market, and the critical decisions and actions that senior executives and boards of directors are considering and making. This edition covers BCG's 29th and 30th investor pulse checks since March 2020.

BCG recently conducted two pulse checks to help corporate executives and boards of directors understand investors' perspectives in this rapidly changing environment.

- Approximately 93% of the participants in the April survey overlapped with the respondents in the survey conducted March 24–25, 2025, and 83% of the April participants overlapped with the respondents in the survey conducted November 8–10, 2024
- Across the three most recent surveys (November 8–10, 2024, March 24–25, 2025, and April 8–9, 2025), the overlap in respondents is 75%

About the respondents:

- They represent investment firms that have more than \$5 billion in combined assets under management
- Roughly 90% are portfolio managers and senior analysts who are responsible for buy, sell, and hold decisions
- They cover a broad spectrum of investor types and investment styles, including deep value, income, quality value, growth at a reasonable price (GARP), and core growth; they also include some quantitative, technical, and special situation investors

The survey focused on two key topics:

1 | Investors' views of and expectations for the US economy and stock market, and their views on key risks and opportunities in the current environment

2 | Investors' perspectives on important decisions and priorities that corporate executives and boards of directors are considering and making

- Because the market environment is evolving, especially regarding macroeconomic conditions, some questions from prior surveys were not asked or were replaced with new ones in this edition
- The analysis shared in this document represents an aggregated view that is not segmented by investor type; it is important for corporate executives and boards of directors to keep in mind their current and target investor type while interpreting the results
- The results represent the views of surveyed investors only; to understand BCG's point of view on current topics, please visit bcg.com
