**The Fleet Air Arm and the War in Europe, 1939-1945** David Hobbs, 2022-03-30 A comprehensive history of the Royal Navy's naval aviation component's campaigns during World War II For the first time this book tells the story of how naval air operations evolved into a vital element of the Royal Navy's ability to fight a three dimensional war against both the Kriegsmarine and Luftwaffe An integral part of RN the Fleet Air Arm was not a large organization with only 406 pilots and 232 front line aircraft available for operations in September 1939 Nevertheless its impact far outweighed its numbers it was an RN fighter that shot down the first enemy aircraft of the war and an RN pilot was the first British fighter ace with 5 or more kills The Fleet Air Arm's rollcall of achievements in northern waters went on to include the Norwegian Campaign the crippling of Bismarck the gallant sortie against Scharnhorst and Gneisenau as they passed through the Channel air attacks on enemy E boats in the narrow seas air cover for the Russian convoys air attacks that disabled Tirpitz and strikes and minelaying operations against German shipping in the Norwegian littoral that continued until May 1945 By the end of the war in Europe the FAA had grown to 3243 pilots and 1336 aircraft This book sets all these varied actions within their proper naval context and both technical and tactical aspects are explained with thumbnail descriptions of aircraft their weapons and avionics Cross reference with the Fleet Air Arm Roll of Honour has been made for the first time to put names to those aircrew killed in action wherever possible as a mark of respect for their determination against enemy forces on above and below the sea surface which more

often than not outnumbered them The Fleet Air Arm and the War in Europe completes David Hobbs's much praised six volume series chronicling the operational history of British naval aviation from the earliest days to the present Praise for The Fleet Air Arm and the War in Europe In this masterly addition to his series on the Fleet Air Arm at war David Hobbs addresses naval air operations in the Atlantic the North Sea the Arctic and the English Channel Professor Andrew Lambert
