[Wiki Government](#) Beth Simone Noveck, 2009-08-01 Collaborative democracy: government with the people is a new vision of governance in the digital age. Wiki Government explains how to translate the vision into reality. Beth Simone Noveck draws on her experience in creating Peer to Patent, the federal government's first social networking initiative, to show how technology can connect the expertise of the many to the power of the few. In the process, she reveals what it takes to innovate in government. Launched in 2007, Peer to Patent connects patent examiners to volunteer scientists and technologists via the web. These dedicated but overtaxed officials decide which of the million-plus patent applications currently in the pipeline to approve. Their decisions help determine which start-up pioneers a new industry and which disappears without a trace. Patent examiners have traditionally worked in secret, cut off from essential information and racing against the clock to rule on lengthy technical claims. Peer to Patent broke this mold by creating online networks of self-selecting citizen experts and channeling their knowledge and enthusiasm into forms that patent examiners can easily use. Peer to Patent shows how policymakers can improve decisionmaking by harnessing networks to public institutions. By encouraging coordinating and structuring citizen participation, technology can make government both more open and more effective at solving today's complex social and economic problems. Wiki Government describes how this model

can be applied in a wide variety of settings and offers a fundamental rethinking of effective governance and democratic legitimacy for the twenty first century Governance and Information Technology Viktor Mayer-Schonberger, David Lazer, 2007-08-31 Accompanied by short case studies from around the world which cover such topics as electronic government efforts in Singapore and Switzerland the US EPA s effort to solicit input on planned regulations over the Internet and online activism cyberprotesting globalization Australian contributor **Collaborative Governance in the United States and Korea** Yong-dök Chōng, 2009 *Politics, Democracy and E-Government: Participation and Service Delivery* Reddick, Christopher G., 2010-04-30 This book examines how e government impacts politics and democracy in both developed and developing countries Provided by publisher **The Art of Digital Governance** Younhee Kim, Michael J.
