The Marriage of Science and the Bible David Berg, 2020-05-04 The Marriage of Science and the Bible is an adventure in new concepts I invite you to explore them with me We will investigate God's scientific credentials We will witness his authority over physical science We will see how he is applying the logic of science to human history Our Creator introduced the scientific method Examining his predictions hypotheses we can judge their accuracy across 4 000 years of human history Evaluate use of science of history Begin with secrets of the universe revealed long before modern satellites Inspect a mathematically specific prediction of the coming of Jesus Christ Does the Creator speak in absolutes Does absolute truth exist Consider the complexity of predicting the themes of history and future events No man can do it Recognize the unparalleled importance of God's expansion of science Discover Jesus's description of biblical biology biblical physics and biblical chemistry in God's design for human life Consider why the availability of the Bible in the languages of Northern Europe resulted in the birth of modern science Follow the flaw in human philosophy to Darwin's theory Is it important that astrophysicists are linking the biblical account of creation with twentieth and twenty first century scientific discoveries Personally confirm the science of history by viewing God's hypotheses and current events in Israel Discover the purpose of human history It's an adventure in reality

Agents of Flourishing Amy L. Sherman, 2022-05-10 God calls Christians of every vocation to participate in his redemptive mission so that every corner and square inch of society can flourish as God intends Amy Sherman offers a multifaceted biblically grounded roadmap for enacting God's call to seek the shalom of our communities showcasing historical and contemporary models of faithful and transformational cultural engagement

Faith & Freedom Tom Terry, 2005-11 **Why People Don't Believe** Paul Chamberlain, 2011-05-01 Religion is increasingly seen as a dangerous source of violence in the world breeding a fear of faith in a very vocal group of critics Most Christians are blissfully unaware of the litany of allegations being brought against religion including that it is the cause of intolerance imperialism irrationality bigotry and war to name a few But ignorance is not the answer In Why People Don't Believe Paul Chamberlain strives to represent the concerns and challenges raised against religious faith particularly those raised against Christianity to help readers understand them He then thoughtfully responds to these criticisms honestly evaluating whether they have merit Lastly he outlines the many good and humane contributions Christianity has made to the world throughout the past 2 000 years Anyone who is troubled by today's headlines involving religious violence or who wants to be able to respond intelligently to critics will find Why People Don't Believe a welcome hopeful book

Abortion Brian E Fisher, 2014-07 After forty years of protest and debate we all know one thing for certain about abortion it's a women's issue right Wrong says Brian Fisher in his groundbreaking book Abortion The Ultimate Exploitation of Women In it he reveals long

forgotten or never known facts to show that abortion is very much a man's concern and it's part of a long and tragic pattern of men oppressing women. Which is why the original author of the Equal Rights Amendment feminist Alice Paul called abortion the ultimate exploitation of women. Fisher shows that a select group of compassionate men led the way in the nineteenth century to pass laws strengthening the criminalization of abortion and worked with feminists of that era to do so. But it was men, not women, who drove the campaign that led to the 1973 Supreme Court ruling giving women an unqualified right to end the lives of their unborn children. So what's in it for men? As feminist legal scholar Catharine MacKinnon observes, abortion does not liberate women; it frees male sexual aggression. Abortion is the ultimate get-out-of-jail-free card for men with non-committal sex lives. Another agenda is at work as well. Men use abortion to advance their racist, eugenic, and population control dreams and schemes, as Fisher shows, citing their own words. If men gave us abortion, men can end it, as well. Fisher outlines why and how, and he urges men to take up the task with courageous women. He lays out a five-point plan for men to, with humility, faithfulness, and relentless perseverance, commit our time, resources, energy, heart, and testimony to ending abortion in America for the sake of women, men, and the family.

How Christianity Changed the World Alvin J. Schmidt, 2009-12-15. Western civilization is becoming increasingly pluralistic, secularized, and biblically illiterate. Many people today have little sense of how their lives have benefited from Christianity's influence, often viewing the church with hostility or resentment. *How Christianity Changed the World* is a topically arranged Christian history for Christians and non-Christians. Grounded in solid research and written in a popular style, this book is both a helpful apologetic tool in talking with unbelievers and a source of evidence for why Christianity deserves credit for many of the humane, social, scientific, and cultural advances in the Western world in the last two thousand years. Photographs, timelines, and charts enhance each chapter. This edition features questions for reflection and discussion for each chapter.
