and international relations in general *Unravelling the Mysteries of Africa's Underdevelopment* W. Forje, 2020-05-19

Unravelling the mysteries of Africa's underdevelopment presents an Afrocentric ideological understanding of the continent's fragmentation, a scientific and objective Mijadala discourse as well as an approach of how to move progressively and sustainably Africa forward. The breadth and depth of the book shows the unwavering impoverishment and urgent need for the continent to stand up and take the bull by the horn. It offers an inspiring means of grappling with the continent's problems to build the change we want: An African Wealth of Nations, not the continent of collapsed failed states under the governance construct of centralised authoritarian regimes. It is a thought-provoking discourse that challenges us all to be inherent participants in the reconstruction of a Brave New Africa far beyond the 21st Century.

**Fresh Perspectives: Entrepreneurship**, 2006      **Strategic Management**, 2004

In a business world characterised by change, turbulence and corporate scandals, strategy is more crucial today than ever before. Far too often, top management develops a strategy for the company that is never communicated to or understood by other levels.

*Poverty, Inequality, and Innovation in the Global South* Oliver Mtshali, 2023-03-03

This edited volume analyzes the experiences learned in practice, especially among smallholder farmers, to eradicate poverty. In other words, it discusses practical solutions which small-scale farmers can use to alleviate poverty and reduce inequality. This addresses the issue of inclusive and sustainability of projects leading to the notion of not leaving anyone behind. The book provides insights that can be translated into policy with potential to inform practice. It also has the potential to address the issue of rural-urban migration by providing knowledge that is usable by small-scale farmers, policy makers and entrepreneurs alike. The volume is written by authors from different countries: Nigeria, Tanzania and Zimbabwe, indicating the commonality of the problems of poverty and inequality. It contains insights from all these countries assembled together into an amalgam of practices ready to use and implement, informed by evidence from the field, as most of the chapters are based on empirical data.
