David Haddock,Horace R. Brock,1999-04 *Managerial Accounting* Michael Maher,Clyde P. Stickney,Roman L. Weil,2004 This classic text for MBA programs offers balanced coverage of concepts methods and uses of managerial accounting with an increasingly strong emphasis on management decision making This approach helps focus on concepts and managerial uses of financial information rather than techniques of cost accounting The current edition emphasizes international issues strategic effects of decisions ethics and new management accounting trends Also emphasized are process improvement integration of financial reporting issues for management decision making and application of managerial accounting tools to the emerging service sector government and nonprofits in examples and problem material *Introduction to Management Accounting* Dudley W. Curry,1987 *Heuristic Reasoning in Management Accounting* Jörn Sebastian Basel,Jörn Basel,2012 Heuristics are short cuts and deliberately ignore information for instance through examining fewer cues or integrating less information However this collides with a view on management accountants and controllers as rational agents which seems to suggest that all available information should be considered As their role as information supplier is often accompanied with the task to assist managers in their judgment and decision making they have huge influence on these processes Therefore it is of high relevance to know if how and which heuristics management accountants and controllers use Furthermore we need to know which individual and situational factors influence their usage of heuristics With a series of five empirical studies applying a mixed methods research design the author sheds light to these research questions and addresses some central claims of the potential biases but also the stunning benefits of relying on heuristic reasoning Central to his discussion are dual process approaches which are debated in cognitive psychology Scholars of these approaches claim that we should distinguish between two distinct processes or systems of the human mind Following this interpretation heuristics are processes which are described as intuitive automatic fast and unconscious They are routinized cognitive processes which are based on experience in certain social environments and thus often exhibit ecological rationality Overall this book picks up an up to date topic in behavioural accounting research which not only is of relevance for researchers but as well for practitioners

Managerial Economics for Business, Management and Accounting Howard Davies, 1991. This text aims to show how managerial economic analysis is relevant to decision making. Managerial economics is a subject which relates closely to more practical business disciplines including management accounting, marketing and corporate strategy. Topics discussed include consumer behaviour, market behaviour, demand, production, costing, competitive structure, business strategy, pricing and investment. Business studies undergraduates may find the book useful; those studying for MBA's or the DMS may also find the book interesting. Each chapter contains a list of self-test questions and at the end of each chapter there is a question of examination standard. Answers have been provided at the end of the book.
