The Attestation requires that an individual recognize and acknowledge that:

- The control of corrosion is obligatory to maximize conservation of our material resources, and to reduce economic losses and to protect the environment.
- The entire field of corrosion and its control encompasses the application of the knowledge and experience of many diverse disciplines and levels of technical competence.
- Only through continual association and cooperation with others in this field can the safest and most economical solutions be found to the many corrosion problems.
- The quality of their work reflects on the entire profession of corrosion control.

The applicant is therefore asked to:

- Give first consideration in corrosion control work to public safety and welfare, and to the protection of the environment.
- Apply himself or herself with diligence and responsibility to the corrosion control work that is within the applicant's area of competence.
- Pursue work with fairness, honesty, integrity and courtesy, ever mindful of the best interests of the public, the applicant's employer, and of fellow workers.
- Not represent himself or herself to be proficient or make recommendations in phases of corrosion control work in which the applicant is not qualified by knowledge and experience.
- Avoid and discourage untrue, sensational, exaggerated, and/or unwarranted statements regarding the applicant's work in oral presentations, written texts, and/or advertising media.
- Treat as confidential the applicant's knowledge of the business affairs and/or technical process of clients, employers, or customers when their interests so require.
- Inform clients or employers of any business affiliations, interests, and/or connections which might influence the applicant's judgment.
- Uphold, foster, and contribute to the achievement of the objectives of NACE International.
