**Marcel A. Müller**

## **Burning Darkness:**

**En la Ardiente Oscuridad** Antonio Buero Vallejo, 2010 This play describes a teaching centre for young people who are blind where a false unity is maintained by a mixture of fear coercion and diversion and where education is seen as to play a part in the regime's ideological apparatus and to encourage the acceptance of pleasant and reassuring myths

**The Writings Against The Manichaeans And The Donatists** St. Augustine of Hippo, This volume gives a fair sample of Augustin's controversial powers His nine years personal experience of the vanity of Manichism made him thoroughly earnest and sympathetic in his efforts to disentangle other men from its snares and also equipped him with the knowledge requisite for this task No doubt the Pelagian controversy was more congenial to his mind His logical acuteness and knowledge of Scripture availed him more in combating men who fought with the same weapons than in dealing with a system which threw around its positions the mist of Gnostic speculation or veiled its doctrine under a grotesque mythology or based itself on a cosmogony too fantastic for a Western mind to tolerate 25 But however Augustin may have misconceived the strange forms in which this system was presented there is no doubt that he comprehended and demolished its fundamental principles 26 that he did so as a necessary part of his own personal search for the truth and that in doing so he gained possession vitally and permanently of ideas and principles which subsequently entered into all he thought and wrote In finding his way through the mazes of the obscure region into which Mani had led him he once for all ascertained the true relation subsisting between God and His creatures formed his opinion regarding the respective provinces of reason and faith and the connection of the Old and New Testaments and found the root of all evil in the created will

**Featuring Post-national Spain** Andrés Zamora, 2016 In the last quarter of the twentieth century a considerable number of Spanish films were involved in the task of essaying the nation that is of attempting to make it or make it over of trying to reshape a national identity inexorably dictated by General Francisco Franco up to his death The book explores four major issues in this regard 1 the filmic negotiations of the borders of the nation focusing particularly on the debated and controversial development of Basque cinema vis vis the films produced in the rest of Spain 2 the persistence of the old obsession with violence thought of as an inescapable native trait in a large amount of post-dictatorial films 3 the newfound insatiable appetite for cinematic travelling for going out and coming in through all possible variations of the road and travel movie genres 4 and the vindication of the mother qua a benign emblem of the land and its people of the nation There is a narrative in Spanish cinema taken as a collective discourse which ties together these four cinematic topoi and proposes a nation whose specificity must be precisely its impurity difference within as essence a hybrid nation located in temporal and spatial rendezvous of past and present tradition and novelty centre and margin inside and outside on and beyond
