Theory and Practice of Finance Baafi Antwi Joseph (Ph.D), Gladwel Wughanga Mwangasu, Mehrnoush Shahhosseini, Rosa Mukami, Angkawipa Kangsanarak, David K. Ding, Ibrahim Salifu, 2022-09-08

Integrated Investing Simon Weihofen, 2017-01-05 Besides financial goals companies increasingly start formulating strategic environmental goals However the management and control of these goals remains a challenge Therefore this thesis aims to develop a method that is able to systematically integrate financial and environmental data in investment processes to support the achievement of strategic environmental and financial goals of companies This new integrated investing method intends to provide a sufficient degree of scientific quality on the one hand and practical applicability on the other hand In context of this thesis a deficit analysis assesses reasons why current methods of environmental management accounting have not established as common business practice so far During the first part of the subsequent method development a set of

seven requirements is composed On basis of these requirements additional methods of environmental management and management accounting systems are evaluated resulting in a final set of three approaches representing the basis of developing the new integrated investing method After developing and describing the new integrated investing method the method is applied in seven case studies within the Volkswagen Group This method application verifies the method s practical applicability as well as its ability to manage and control strategic environmental and financial goals In conclusion this dissertation contributes to the development and application of a new integrated investing method that aims to ensure a sufficient degree of scientific quality and practical applicability With the help of this method it is able to systematically integrate environmental impacts in investment processes of companies in order to manage and control the achievement of strategic environmental and financial goals
