Duality in Genesis Chris Oxley,2025-08-19 This short book will appeal to those who have difficulty with the Hebrew creation story found in the first three chapters in the book of Genesis as well as those who ask the question where did the universe and modern humankind come from If the Hebrew creation story was inspired by God then it should bear some resemblance to the modern scientific understanding of the origins of the cosmos and the modern Homo sapiens if it does not then basic biblical truths have to be questioned The Hebrew creation story which was not divinely dictated is treated solely as an ancient timeless scientific road map founded on the science of that time The story has been revisited based on our understanding of today s science which suggests prior information had been released three times into the creation 1 giving rise to the universe 2 the first living cell and 3 the transformation of the Homo sapiens to modern Homo sapiens This book offers an intriguing and fascinating way of relooking at the Hebrew creation story that bears a resemblance to our understanding of modern scientific ideas Homo Sapiens Stanisław Przybyszewski,1915 Coexisting on Earth Homo sapiens Quagmire Michael C. Homo Sapiens George Soli, 1987 Through a concise sequential analysis of both historical scientific events the author a biological scientist demonstrates that the human species has not evolved much

ethically intellectually since the time of ancient Greece although it has progressed greatly scientifically technologically Man has now put himself into a situation unlike any other in history For the first time with his actions he is threatening the very existence of life on the planet In order to avoid extinction Soli proposes that human beings free themselves of conceptual boundaries decide to evolve He calls the process forced evolution he suggests ways to achieve it After all Homo sapiens is the only species that is aware of its own evolution so why not take advantage of this peculiar cognizance evolve further now rather than wait risk catastrophe With its clear language the book enables the average reader to become better aware of contemporary realities The book represents good reading for college students as well as anybody with a minimum base of knowledge To order send check or money order of 14 50 12 50 2 00 S H to Engel Pavin Associates PO Box 1679 Solvang CA 93464
