*A Lion for Love* Robert Alter, Carol Cosman, 1986 Traces the life of the nineteenth century French novelist attempts to portray his complex personality and analyzes his major works **On Love** Stendhal, 2020-04-09 One of Stendhal s early works is *On Love* a rational analysis of romantic passion that was based on his unrequited love for Mathilde Countess Dembowska whom he met while living in Milan This fusion of and tension between clear headed analysis and romantic feeling is typical of Stendhal s great novels On Love Philip Sidney Woolf, 2020-08-14 Reproduction of the original *On Love* by Philip Sidney Woolf *LOVE BY STENDHAL* TRANS. G.SALE. Stendhal, **On Love** Stendhal Stendhal, 2025-03 *On Love* is a philosophical treatise that explores the complexities of romantic love breaking it down into various forms and stages The work delves into the psychological processes involved in love introducing the concept of crystallisation where lovers project idealized qualities onto their beloved enhancing their affection The treatise categorizes love into types such as passion love gallant love physical love and vanity love providing a nuanced understanding of how love manifests in different forms The author uses both historical examples and personal anecdotes to analyze the phenomenon offering a methodical and theoretical framework for understanding the birth and progression of love Early chapters reflect on the stages of admiration and hope while emphasizing the transformative process of crystallisation wherein affection is shaped by imagination rather than reality Through this lens Stendhal explores the interplay between the real and the imagined in romantic relationships providing a deeper understanding of human affection This treatise offers a profound analytical perspective on the nature of love and its psychological dimensions **Love** Stendhal, 2016-12-18 Of all his books *Love* was Stendhal s favorite Written at a critical time in his life when his own love had been rejected the book is a thinly disguised picture of the author s innermost feelings Though it ranges over a wide variety of topics from courtly love to the emancipation of women central to the book is Stendhal s account of love an intense romantic and generally unrequited love *On Love* Stendhal, 2019-11-20 In *On Love* Stendhal explores the intricate and multifaceted nature of love through a blend of psychological insight and keen observation Written in a lucid and engaging prose style the book delves into various forms of love from romantic to platonic while examining the paradoxes that often accompany them Set against the backdrop of

early 19th century France Stendhal draws upon personal experiences and literary examples presenting his ideas in a format that oscillates between philosophical treatise and personal reflection This work seminal in the canon of romantic literature is characterized by Stendhal s ironic and sometimes humorous tone which invites readers to contemplate love s complexities with both passion and skepticism Stendhal born Marie Henri Beyle was a prominent French writer whose own experiences with love and relationships greatly influenced his literary endeavors Having lived through a tumultuous and often romantic life including his time in the military and his fascination with Italian culture Stendhal s insights are imbued with both authenticity and a profound understanding of human emotion His passion for art and his reflections on aesthetics also permeate the narrative elevating the discourse on love to an art form itself On Love is a must read for anyone intrigued by the psychological dynamics of affection and relationships Stendhal s eloquent analysis invites readers to engage with their own experiences and perceptions of love all while challenging conventional notions Whether you are a lover of literature philosophy or simply curious about the universal themes of passion this masterful exploration of love s nuances will resonate deeply and linger in the mind long after the final page Maxims of Love Stendhal,1959 **De L'Amour**

consuming emotion to most remarkable effect Having classified the many types of love passionate physical vain Stendhal identifies the seven stages by which lovers fall under the spell of emotion He here expounds his celebrated theory of crystallisation through which the object of affection is transformed beyond all recognition adorned with a thousand crystals in the mind of the lover The prescience of his theories about the psychological state of loving has astounded generations of readers Yet beneath these clever philosophical musings can be seen a desperate attempt by the author to reconcile and dispel his own tortured emotions The result is an astonishing work that bears all the hallmarks of Stendhal's later masterpieces
